Subject: Link to U&O FIP Cost Analysis & Emission Reduction Spreadsheets

Hi Aaron-

Here's the link to the folder containing the Cost Analysis and Emission Reduction spreadsheets that were created in support of the U&O FIP. The data to populate these spreadsheets came from the U&O Registration Access database.

I:\Restricted Share\U&O FIP\Technical Support Documents\UB Registration Data

These spreadsheets will need to be updated with the Utah emission inventory data before the FIP goes final. There are most likely differences in the kinds of data between the Registration database and the emission inventory data.

Take a look at the spreadsheets then we can get together to discuss.

Thanks

Alexas
